

a new perspective on the  
**colourful side** of life

Legurme transforms the harvests of Anatolia  
into healthy, modern foods enjoyed worldwide.  
With innovative recipes, clean labels and trusted production,  
we share a new perspective for a colourful life...  
Natural, delicious and full of goodness.

**Ankara Factory / Türkiye**

Yayla Agro is one of the pioneering companies in the industry, boasting 30 years of deep-rooted experience in rice, pulses, and the processed food sector. With an international vision, Yayla Agro offers a wide product range and high production capacity using advanced technology. The company's factories in Ankara, Mersin, and Niğde have significant production capabilities. Yayla Agro Food serves customers across Turkey's 81 provinces. It does so through 9 Horeca, 56 packaged product dealers, and over 60,000 points of sale. Yayla also actively continues its operations in international markets. Its global brand, Legurme, leads this growth. The company grows each year consistently and takes on the mission of introducing Turkish taste to the world. With the motto "Building a better future," Yayla produces high-quality, reliable, and innovative products, which are tailored to changing consumption habits and customer demands. Entrepreneurship, dynamism, and innovation are core to its corporate culture. Yayla Agro Food believes in intellectual capital and sustainability. It is committed to being a social company that shapes today's world, understands trends, and manages them by investing.

In line with this vision, the company operates the Ankara Headquarters Factory and the Mersin Factory.

In addition, Niğde Production Facility has been launched in the Niğde Organized Industrial Zone, located on 160 thousand square meters of land with 160 thousand square meters of indoor space, thereby taking its production capacity to a strategic level. At the newly operational Niğde factory, the production and packaging of the following products are carried out: ready meals on plates, boiled products, frozen and freeze-dried products, bone broth, breakfast sauces, ketchup-mayonnaise, pizza and pasta sauces, gluten-free pasta and flours, baby food, oatmeal, muesli-granola, oat-granola-protein bars, hummus, tortillas, chips, healthy legume and rice-snack products, and rice and legume products enriched with plant-based meat. Within the framework of the circular economy, the Niğde factory has the capability to produce all the raw materials it needs for its lines in-house. Yayla Agro Gıda, a leader in the development of functional and plant-based foods, with the Niğde factory continues to create value for sustainable development goals and manage global food trends by offering high value-added products that meet changing consumer needs and expectations. and pulses.

## Legurme Gourmet MINI - THIN

Natural Pigment Technology: It gets its vibrant colors from peas, spinach, and beetroot rather than artificial additives. Those bright colors on your plate are entirely nature's signature.

The Power of Legumes: With its chickpea-based recipe, it stands out from traditional corn snacks by offering high protein and rich fiber support.

Motto: "The colors of nature, the tiniest form of crunch."
